Vellore, Tamilnadu

SUMMARY

Artificial Intelligence & Data Science graduate with experience in machine learning, deep learning, data analysis, and cloud-based data engineering. Skilled in Python, SQL, PyTorch, Snowflake, Databricks, and data visualization, with hands-on experience developing predictive models, ETL pipelines, and AI-powered applications. Passionate about applying data science and statistical techniques to solve complex business challenges and deliver actionable insights.

EDUCATION

B.Tech Artificial Intelligence & Data Science, Chennai Institute of Technology
CGPA: 8.49 / 10

09/2021 – 05/2025 | Chennai

PROFESSIONAL EXPERIENCE

WNS Global Services Pvt Ltd, Associate Technical Consultant

06/2025 – Present | Chennai

- Designed and developed low-code enterprise applications using **Appian**, with a strong focus on building efficient and user-friendly **SAIL interfaces**.
- Collaborated with cross-functional teams to implement **workflow automation** solutions, following Appian best practices to improve process efficiency.
- Built and optimized **scalable Appian components**, enhancing application performance, maintainability, and reusability across projects.

Accenture, Software Developer Intern

01/2025 – 04/2025 | Chennai

- Worked on cloud-based data platforms including **Snowflake** and **Databricks** to manage, transform, and analyze large-scale datasets.
- Developed and optimized SQL queries and **PySpark** transformations to perform efficient **ETL** operations and improve data performance.
- Conducted data cleaning, validation, and exploratory analysis to ensure high-quality, reliable data for business reporting.
- Collaborated with cross-functional teams to design data-driven reports and insights that supported strategic decision-making.

PROJECTS

Reinforcement Learning–Based Snake Game AI , Python, Machine learning, Pytorch

10/2024 – 12/2024

- Developed an AI-driven Snake game using **Python and PyTorch**, enabling the agent to make autonomous decisions in a dynamically.
- Implemented **reinforcement learning techniques** to allow the snake to learn optimal actions through rewards and penalties technique.
- Designed the game environment, state representation, action space, and reward mechanism to support effective learning & training.
- Trained and evaluated the model through multiple episodes, achieving consistent improvement in survival time and score.

Zephyr chatbot RAG , Python, Gemini, Streamlit, MongoDB

07/2024 – 08/2024

- Built an chatbot using **Retrieval-Augmented Generation (RAG)** integrated with **Google Gemini** to generate context-aware responses.
- Implemented document ingestion, embedding, and retrieval to supply relevant external knowledge to the LLM during response generation.
- Designed effective **prompt engineering** strategies to improve response relevance and reduce hallucinations.
- Developed the backend in **Python** and deployed the chatbot with a scalable architecture for real-time user interactions

Deepfake Video Detection using Resnet 50, Python, LLM, LSTM

01/2025 – 04/2025

- Developed a **deepfake video detection system** using **ResNet-50** for spatial feature extraction and **LSTM** for temporal sequence analysis.
- Extracted and preprocessed video frames through resizing, normalization, and sequence generation to ensure consistent model input.
- Trained and evaluated the model on real and manipulated videos to identify temporal and visual inconsistencies in deepfake content.
- Optimized model performance through hyperparameter tuning and regularization to improve classification accuracy and generalization.

SKILLS

Programming: Python, SQL, Java

Machine Learning: Scikit-learn, PyTorch, Deep Learning, Reinforcement Learning, Statistical Modeling

Data Analysis: Pandas, NumPy, ETL, Data Cleaning, Exploratory Data Analysis (EDA)

Cloud & Big Data: Snowflake, Databricks, PySpark

Visualization: Power BI, Tableau

LEARNING & CERTIFICATION

CISCO Introduction to cybersecurity 

12/2022 – 01/2023

Complete Machine Learning and Data Science Bootcamp , Python, ML, DL

04/2023 – 06/2023

IBM google data Analytics, python, Ms Excel

07/2023 – 08/2023

COMPETITIVE PROGRAMMING

Leetcode, Solved 264+ problems | Rating: 1328

Codechef, Solved 140+ problems | Rating: 1260

Codeforce, Solved 50+ problems | Rating: 777
